

Scout Programs

The Fort Washington Fire Company conducts fire safety / fire prevention programs for many scout groups. Our programs are available to Brownies, Cubs, Girls, and Boy Scouts. We have age appropriate presentations as well as fire safety videos. Tours of the station and trucks are also included. Adults and children always leave with more knowledge as well as having a great time.

For the older Scouts, we also offer a program that meets the requirements of the Boy Scout Fire Safety Merit Badge.

If you are interested in any of our scout programs, please contact the Fire Prevention Committee by phone at 215.646.2555, press option # 1, then press option # 6.

Or you can e-mail Howard Schmuckler at FirePrevention@fortwashingtonfc.org. Howard Schmuckler is responsible for the scout programs offered by the Fort Washington Fire Company.
